## ABOUT ME

Having lived in the creative and open minded  
city of San Francisco for most of my life, I grew  
up around people who encouraged me to con-  
stantly try new things. The creativity required  
to be an architect inspires me to challenge the  
beliefs and ideas around me everyday. Aside  
from architecture, I've acquired a love for street  
art, cutting hair, and playing soccer.
